

LongPack GAMES

LongPack GAMES

LongPack Games is part of LongPack Co. Ltd, a printing and packaging company located in Shanghai, China. With over 10 years of experience in the printing and packaging field we have amassed a wealth of industry knowledge and experience. With our deep level of expertise and specialized printing and packaging factories, we have provided printing and packaging solutions to over 500 different companies from all across the world.

Board games represent one of our main business departments, and we boast a strong Western experienced team that possess both a strong technical as well as a competent sourcing ability, allowing us to produce the highest quality of table top board games, accessories and customized wooden, metal and plastic components. Our team can help you find the perfect balance between cost, quality and speed of delivery, allowing you to launch your game with ease of heart.

At LongPack Games we aspire to work with publishers and merchandisers who are looking for a full-service turnkey manufacturing facility, backed up by an experienced and skilled team capable of handling any job in an efficient and satisfactory manner.

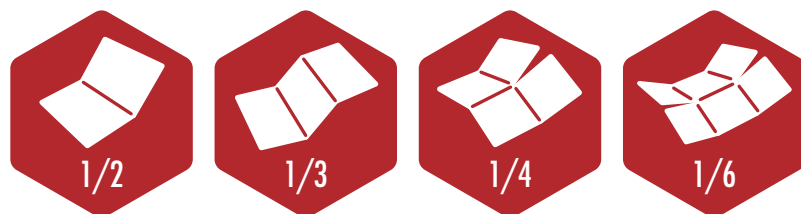

Game Boards

Linen texture
Tatort - Moses Verlag GmbH

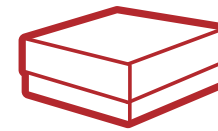

Custom die cut board
Starfall - IDW Games

We control the moisture within 12% for game boards. We are happy to work with clients on any special requests they may have.

Game Boxes

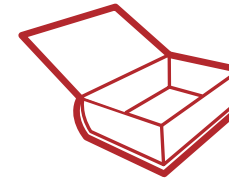

Telescopic boxes

Tuck boxes

Tin boxes

Book-style boxes

Magnet boxes

Deck boxes

We can also treat the boxes with special finishes to make them stand out, such as:

Spot UV

Linen Texture

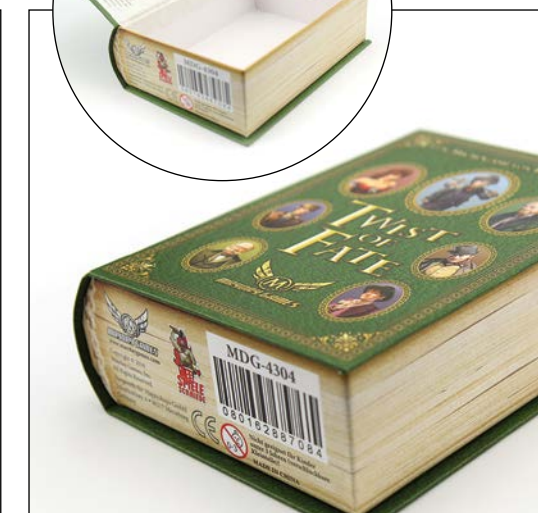

Golden / Silver Foil

Embossing

Foil Embossing

Punchboards

Punchboards are made of grey chipboard that have printed C2S or CCNB paper on one or both sides. Punchboards offer an affordable alternative to wooden or plastic components without compromising on the playing experience.

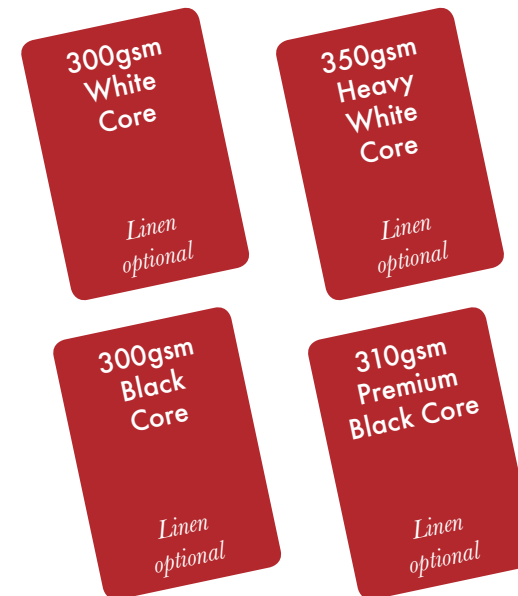

We control the moisture within 12% for punchboards and can accommodate any special requests you may have.

Playing Cards

Our Cards

We can apply a **linen texture** finish to all of our card stock types. Normally we apply a **poker varnish** to all our cards in order to make them feel smoother and allow them to be shuffled more easily.

Playing cards
Fallen - Watchtower Games

Linen texture
Monstrous - Secret Base Games

Dice

The die faces can be customized in any way you like: custom images, logos, pips and numbers. Customization can be done through custom molds or screen printing and the dice can be made from either resin or acrylic.

Miniatures

We can use pictures of a miniature to help you create a 3D model. Then we will 3D print a miniature in accordance to that model, which can then be used to develop the mold.

Wooden & Plastic Components

Wooden components

Wooden components can be painted or silkscreened in any pantone color. In addition to using machines to cut the pieces as precise as possible, we can use laser cutting on pieces to create high quality details.

Paint

Silkscreen

Laser

Plastic components

We have a vast library of standard issue plastic components for board games, such as:

Pawns

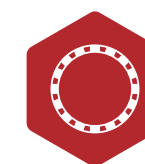

Round tokens

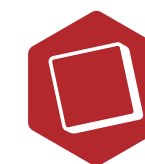

Sand timers

Acrylic gems and stones

Plastic discs

Square tokens

Plastic stands

Spinners

Race to the North Pole

Heroes

Dr. Eureka

**IDW
GAMES**
Starfall

Doctor Panic

Little Circuses

Saga of the Northmen

Unfair
